

ABOUT ME

I am a first-year Engineering student at the University of Toronto with an overall A- average. I am part of the University of Toronto's "Your Next Career Network" club, which focuses on providing all students with employment connections and recruitment experience. My hobbies include sewing, reading, and cooking.

PROFESSIONAL EXPERIENCES

Camp Counsellor

Organized and led engaging activities for children at Thomas L. Wells Summer Camp to foster a positive and inclusive environment, which enhanced children's social and cognitive skills, and led to being awarded 'Employee of the Month.'

Coach at Islamic Soccer League

I coached and mentored a soccer team which developed players' skills, instilled teamwork, and promoted sportsmanship. This positive environment led to our team achieving success in local leagues.

Secretary at Muslim Welfare Centre

I managed administrative tasks, facilitated communication, and maintained records, which improved organization and ensured seamless communication between the staff and patients.

Fundraiser for Islamic Centre of Markham

I planned fundraising events for local projects, which raised substantial funds and was critical to the project's success displaying active community involvement.

Project Manager For Design Course:

I collaborated with a diverse group to address a real-life problem using design principles. Through teamwork and effective communication a creative solution design was delivered to the client.

EXTRACURRICULARS

Taekwondo Experience:

I achieved a black belt status in Taekwondo by dedicating years to self-discipline which demonstrates commitment and perseverance. I now volunteer at Master Ryu's Taekwondo and aid children in improving their skills, depicting leadership.

Markham Stouffville Hospital Gift Shop Organizer

I provided efficient and friendly customer service in a healthcare setting, which enhanced the patient experience, contributing to a compassionate and supportive healthcare environment.

SKILLS

Linguistic Competence

Being fluent in Arabic, English, Urdu, and French through formal education, I can effectively communicate in diverse linguistic settings.

MATLAB, AutoCAD and C Programming Proficiency
